

**1****Cross-cutting systems and accessories**

- 1.1 Band saws
- 1.1.1 Horizontal band saws
- 1.1.2 Vertical band saws
- 1.1.3 Saw drilling rigs
- 1.2 Fusion cutting sawing machines
- 1.3 Hacksaws
- 1.4 Circular saws
- 1.4.1 Circular pipe saws
- 1.4.2 Panel saws
- 1.4.3 Specimen saws
- 1.4.4 Saw drilling rigs
- 1.5 Saw blades
- 1.5.1 HSS
- 1.5.2 HSSE
- 1.5.3 Carbide tipped saw blades
- 1.5.4 Solid carbide saw blades
- 1.6 Saw bands
- 1.6.1 M42/M51
- 1.6.2 Carbide tipped saw bands
- 1.7 Machine knives
- 1.8 Grinding wheels
- 1.9 Diamond wire saws

2**Cutting systems and accessories**

- 2.1 Cut-to-length and slitting lines
- 2.2 Trimming machines
- 2.3 Laser cutting systems
- 2.4 Perforating machines
- 2.5 Plasma cutting equipment
- 2.6 Water jet cutting systems
- 2.7 Cutting-off machines
- 2.8 Circular shears
- 2.9 Strip and circular blade shears
- 2.10 Guillotine shears
- 2.11 Sinker shears
- 2.12 Hand lever shears
- 2.13 Folding and hacking
- 2.14 Circular saw soldering machines
- 2.15 Tension leveling, rolling machines
- 2.16 Carbide metals for circular saw production
- 2.17 Hydraulic systems

3**Treatment plants**

- 3.1 Brushing plants
- 3.2 Pickling plants
- 3.3 Descaling plants
- 3.4 Plants for peeling
- 3.5 Plants for grinding
- 3.6 Plants for polishing
- 3.7 Plants for lapping
- 3.8 Honing plants
- 3.9 Sandblasting plants
- 3.10 Trowal plants
- 3.11 Industrial brushes
- 3.12 Degreasing and cleaning plants

3.13

Exhaust systems

3.14

Clamping tools

3.15

Leveling machines

3.16

Industrial robots

3.17

Galvanic tube finishing plants

3.18

Coating and varnishing plants

3.19

Labelling and marking systems

3.20

Coolants and lubricants

3.21

Insulation systems

3.22

Testing systems

3.23

Measuring systems

3.24

Drive and control technology

3.25

Control technology

3.26

Operating equipment, occupational safety

3.27

Sharpening machines for saw blades and bandsaw blades

3.28

Filter systems for oils and lubricants

3.29

Magnetic separators

3.30

Chip conveyors

3.31

Industrial vacuum cleaners

3.32

Briquetting plants

4**Plants for mechanical processing****4.1**

Deburring plants

4.2

Pointing machines

4.3

Pipe cleaning plants

4.4

Machines for expanding and flanging

4.5

Machines for compressing

4.6

Turning machines

4.7

Chamfering machines

4.8

Drilling machines

4.9

Machines for grooving and thread cutting

4.10

Machines for profiling, perforating and punching

4.11

Slitting machines

4.12

Impact machines

4.13

Broaching machines

4.14

Spark erosion plants

4.15

Laser processing systems

4.16

Tube machining centres

4.17

Machines for additive manufacturing (3D printing)

5**Handling systems****5.1**

Bundling and setting plants

5.2

Conveying, lifting and transport equipment

5.3

Storage and shelving systems

5.4

Other handling and packaging systems

6**Used machinery for the sawmill industry****6.1**

Spare and wear parts for the sawmill industry

6.2

Contract sawmills

6.3

Services for sawing technology

6.4

Software for sawing technology

6.5

Accessories for sawing machines
